

Tech Recycle

Turn Old Electronics Into Real Community Impact

With Zero Data Risk & Maximum Value Back

What is Tech Recycle?

Tech Recycle is a first-of-its-kind partnership between Goodwill Houston and CompuCycle that gives school districts a smarter, fully certified way to retire electronics — while creating real employment pathways for students 18-22 with disabilities.

Benefits:

- ✓ Certified data destruction
- ✓ Maximum value back to districts
- ✓ Audit-ready disposition reports
- ✓ Zero cost to participate

How It Works

Secure Data Destruction

IT assets are transported CompuCycle's secure facility where all data is destroyed & documented.

Workforce Training

Data-free devices move to Goodwill Houston's training facility, where students learn to dismantle electronics under instruction.

Value Back to You

Dismantled materials return to CompuCycle for processing. The recovered value goes straight back to your district.

Your End-of-Life Electronics Their Beginning.

12-week paid workforce track for students 18-22 with disabilities

Tech Recycle places transition-age students in hands-on training, not a simulation. Over 12 weeks, students learn to dismantle real electronics, building technical skills that translate directly into employment.

BENEFITS

12-Week Paid Salary

Students earn a real paycheck, funded entirely by Goodwill Houston.

Hands-On Technical Training

Students dismantle non-data bearing electronics to aid scrap material recovery.

IEP Transition Support

Structured work experience that satisfies transition planning requirements.

Job Placement Pipeline

Program graduates enter Goodwill Houston's established employment network.

WINS FOR ALL

Your District

Certified data destruction, audit-ready documentation, and competitive value back — at zero cost.

Your Students

Paid 12-week technical training and a direct path into Goodwill Houston's employment pipeline.

Your Community

Local jobs created for an underserved population, backed by Houston's most secure electronics recycler.
